

sion lacks accurate knowledge of many things. But then I have written you this before. When one of your writers solemnly states that typhus fever is carried by air particles, breathing; and the profession at large know, and have known

for several years, that typhus is transmitted by lice; doctors and their wives are likely to have a generally poor opinion of THE GOLDEN AGE. That statement about typhus was made by you some months ago.

## Vaccination a Failure

By Mrs. R. Walter Maygrove

**I**N A recent issue of your most valuable paper, THE GOLDEN AGE, for April 27th of the current year was an article by G. del Pino, of Glasgow, entitled, "How Vaccines Work".

Vaccination never prevented anything and never will, and is the most barbarous practice of an otherwise civilized nation. When will men learn as much about their own bodies as they do about their motor cars?

The medical world points with pride at the great decrease in smallpox and proudly gives corpse virus the credit when sanitation is the real benefactor. We are told that the vaccines used by the physicians are prepared under the most sanitary conditions. The conditions as one has put it are:

"The torturing of calves until in some well-known cases the eyes of the animals have dropped from their sockets from the agony they have endured. Then the corpse virus is about ready to be injected into the blood of some baby or some elder with, let us say, softening of the brain."

It is bad enough to teach that a body is rendered more immune from disease by being poisoned; but to make laws forcing parents to have their perfectly well babies vaccinated, subjecting them to cadaveric poisoning before they may be allowed the privileges of a common school education, is a most shameful outrage upon a free (?) people.

Jenner in 1789 was the first to inoculate the virus into human beings in order to stimulate immunity from smallpox; and later every one of his own family died of tuberculosis, martyrs to a foolish cause.

Dr. Makuna wrote 4,000 physicians of England, asking them the effects of vaccination. Only 375 replied and the doctors admitted to 126 cases of erysipelas, 64 eczema, 53 syphilis, 9 scrofula, and a liberal number of cases of cancer, boils, blindness, paralysis, and meningitis, along with diseased bones and other serious ailments. This is probably only a very small percentage of the danger done by vaccines

in the hands of these 4,000 doctors, as only a few physicians had the courage to speak truthfully and the cases cited were only such as follow immediately after vaccination.

The editor of the *Homeopathic World* said: "It is exceedingly dangerous to vaccinate persons with cancerous growths. We have seen several cases in which cancer has blazed up immediately after vaccination."

*Medical Talk* plainly says:

"In our judgment vaccination does not protect from smallpox but on the contrary weakens the system and renders the patient more likely to take smallpox." "If the physicians would call things by their right names, vaccination would soon go out of practice. A vaccination sore is a poison sore, and the constitutional symptom is septic fever. Even those who recover from the acute symptoms cannot be sure that they are done with the matter, as a portion of the virus may remain in the system. The damage done may lurk in the system for years, then break out in full fury."

Mr. Porter F. Cope, Secretary of "The Anti-Vaccine Society" said:

"Vaccination induces diphtheria in infants and tuberculosis after puberty. Vaccine has been proven to be the direct cause of pneumonia, pleurisy, and lockjaw."

In the late war 70,000 British soldiers were sent home suffering with tuberculosis after being inoculated with the virus.

I cannot picture the heavenly Father torturing a poor helpless calf, taking the pus from a vile, stinking sore on its belly and giving it to a child, saying, "Here is life". We are in the last days; and the devil is slowly losing his hold, making a strenuous effort meanwhile to do all the damage he can, and to his credit can such evils be placed.

I appeal to all right thinking people to throw off this veil of ignorance and fight for their lives and those of their little ones. Do you know, fathers and mothers, that 70 percent of the children born in the United States are either morons, anemic or syphilitic? Use your rights as American citizens to forever abolish the devilish practice of vaccination.
